

MF-DBP Single Cutter SDS Plus Carbide Drill Bit

The MF-DBP – SDS PLUS concrete drill bit proven millions of time tough field test, its sets standards of efficiency and performance, with fast, dynamic drilling progress and minimal vibrations. The bit is a powerful product for professional users in concrete, natural stone and masonry.

The dynamic, chisel-shaped drill bit head rapidly penetrates the material, simultaneously channeling the drilling dust into the multi-flute spiral.

Due to its aggressive design, the fast and durable carbide tip allows easy centring and spot drilling – not even reinforced steel presents a problem.

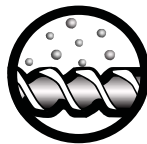

The patented, high-volume, multi-flute KVS-spiral quickly channels the drilling dust from the hole, saving both time and money in the process.

The unique reinforced flute geometry (KV flute) reduces vibration and transfers more impact energy from the rotary hammer to the drill bit head, increasing both drilling speed and life expectancy. Reduced stress for man and machine

The drill bits produced by us bears the mark of approval of the test association Mauerbohrer e.V. (PGM), which is only awarded to selected quality manufacturers. It guarantees compliance with strict tolerances for the diameter of the carbide tip, its symmetrical soldering and the concentricity of the drill bits. These factors guarantee the primary function of every high quality masonry drill bit: precise drilled holes for secure anchor connections.

We only use special steel alloys for our products. The hardening and soldering processes are specifically adapted to each product and in addition they are treated with a special surface treatment. This result in a high quality, durable professional tool.

The "hand-arm vibrations" represent a potential health concern for craftsmen. This is determined to a great extent by the influence of the electric tool. Nevertheless, we develop our tools to support this in order to ensure drilling performance with reduced vibrations, which protects man and machine.

Product Reference	Description	Drill Diameter	Working Length	Total Length
MF-DBP05110	Multifix SDS Plus Drill Bit M5-50x110mm	5,0	50	110
MF-DBP06160	Multifix SDS Plus Drill Bit M6-100x160mm	6,0	100	160
MF-DBP08160	Multifix SDS Plus Drill Bit M8-100x160mm	8,0	100	160
MF-DBP08210	Multifix SDS Plus Drill Bit M8-150x210mm	8,0	150	210
MF-DBP10160	Multifix SDS Plus Drill Bit M10-100x160mm	10,0	100	160
MF-DBP10210	Multifix SDS Plus Drill Bit M10-150x210mm	10,0	150	210
MF-DBP12160	Multifix SDS Plus Drill Bit M12-100x160mm	12,0	100	160
MF-DBP12210	Multifix SDS Plus Drill Bit M12-150x210mm	12,0	150	210
MF-DBP13210	Multifix SDS Plus Drill Bit M13-150x210mm	13,0	150	210
MF-DBP14210	Multifix SDS Plus Drill Bit M14-150x210mm	14,0	150	210
MF-DBP16160	Multifix SDS Plus Drill Bit M16-100x160mm	16,0	100	160
MF-DBP16210	Multifix SDS Plus Drill Bit M16-150x210mm	16,0	150	210
MF-DBP16260	Multifix SDS Plus Drill Bit M16-200x260mm	16,0	200	260
MF-DBP18200	Multifix SDS Plus Drill Bit M18-150x200mm	20,0	150	200
MF-DBP20300	Multifix SDS Plus Drill Bit M20-250x300mm	20,0	250	300
